<b>Installing method</b>	Installing TV, LCD screen or Interactive whiteboard in the middle: width<2070mm, height<1285mm

# LCD Writing Boards with Big TV Screen - Meeting & Conference

Working jointly with the largest LCD writing technology factory in China, we focus on research, development, manufacturing and sales of LCD writing board. We are committed to providing the most reliable and the most advanced writing solutions for modern education and commerce globally.

Dedicated to changing the traditional blackboard and whiteboard writing, our state-of-the-art LCD writing boards are made from liquid crystal polymer mixture formula. Through the pressure applied on the liquid crystal film, the configuration of the liquid crystal molecules will be changed, leading to the light reflection of certain wavelength. Thus the writing marks are shown to realize the writing while effectively protecting the body health of students and teachers,
